

Emerson Electric

Locations: Missouri (HQ)

Industries: Technology Hardware and Equipment

RISK LEVEL:

High Risk

DESCRIPTION:

Emerson Electric is High Risk. The company yields to political activism in shaping corporate governance, potentially alienating consumers, dividing employees, and harming shareholders. The company implements race and identity-based policies that replace merit, excellence, and integrity with preferential treatment and outcomes. Emerson Electric embraces corporate initiatives that redirect its central focus from business goals to partisan policies and divisive issues. This approach fails to safeguard free exercise, free speech, and free enterprise.

Corporate Weaponization

Has canceled customers, suppliers, or vendors due to their political views or religious beliefs OR corporately boycotts, divests, or sanctions regions, people groups, or industries. Medium Risk

Emerson Electric received a score of 90 on the 2025 Corporate Equality Index (CEI) from the Human Rights Campaign (HRC), a political stakeholder group. The company recruits employees based on sexual identity issues. The company discriminates against vendors that do not promote divisive sex and gender policies, indicating it prioritizes sexual issues over merit (1)(2). However, Emerson Electric has not publicly canceled customers, suppliers, or vendors based on political views or religious beliefs (3).

Charitable giving (including employee matching programs) policies or practices discriminate against charitable organizations based on views or religious beliefs. High Risk

Emerson Electric's HRC 2025 CEI rating indicates the company will not donate to non-religious charities unless they embrace controversial sexual identity policies (1)(2). The company's charitable giving guidelines require that organizations abide by its nondiscrimination policy, including on the basis of sexual orientation and gender identity, thereby excluding some religious charities (3).

Employment policies fail to protect against viewpoint or other discrimination and/or are ideological in nature. High Risk

Emerson Electric's HRC 2025 CEI rating indicates the company provides gender transition guidelines for its employees and a specific benefits guide with a comprehensive explanation of transgender services funded by the company (1)(2). Emerson Electric protects its employees against viewpoint discrimination (3). The company hosts unconscious bias trainings for employees, and all "upper-level management positions" have experienced such trainings (4).

Corporate Governance and Public Policy

Uses corporate reputation to support causes, organizations, or policies hostile to freedom of expression. High Risk

Emerson Electric's HRC 2025 CEI rating indicates the company agrees to allow a controversial stakeholder group focused on sexual identity issues to dictate marketing or advertising strategy. By doing so, the company risks dividing employees, alienating customers and harming shareholders (1)(2). Emerson Electric signed an open letter in support of the Equality Act, a controversial bill (3). CEO Lal Karsanbhai is a member of the Business Roundtable (4). Emerson Electric's former CEO, David Farr, signed the CEO Action for Diversity & Inclusion pledge, which includes a commitment to promote DEI through bias education training in the workplace (5)(6). Emerson opposed various state and local legislation intended to protect parental rights, girls' sports, bathroom facilities, and gendered spaces (7)(8).

Uses corporate funds to advance ideological causes, organizations, or policies hostile to freedom of expression. High Risk

Emerson Electric's HRC 2025 CEI rating indicates the company covers transgender related costs for its employees and their children, including paid short-term leave, puberty blockers, cross-sex hormones, chest surgeries, genital surgeries, medical visits and lab monitoring, travel and lodging. Additionally, the company has pledged philanthropic support of at least one organization or event that promotes sex and gender ideology. By allowing a political stakeholder group to dictate operations, the company increases health care costs and risks dividing employees, alienating customers and harming shareholders (1)(2).

Uses corporate political actions and/or financial contributions for ideological, non-business purposes. High Risk

Emerson Electric's HRC 2025 CEI rating indicates the company publicly advocated for controversial sex and gender ideology through local, state or federal legislation or initiatives. By allowing a political stakeholder group to dictate operations, the company risks dividing employees, alienating customers and harming shareholders (1)(2). Emerson Electric has not used its PAC donations or lobbied for ideological purposes (3)(4)(5).
